

Mount Diablo State Park has recently completed 32 new bike turnouts on the roads on Mount Diablo, bringing the total to 48 places where cars can safely pass bicycles on blind curves! Please join us at Curry Point, MDSP, to celebrate this significant safety improvement at 11 AM on October 15, 2022. Ride your bike!

The short ceremony, featuring dedicated cyclists, elected officials, and MDSP staff, is a media event to recognize and celebrate the completion of the new bike turnouts. Please come and show your support for these safety improvements for cyclists and motorists in the park.

Plan to stay for the group photo after the ceremony.

Curry Point is approximately 3.5 miles up South Gate Road. There will be two public parking areas for cars (see map below) where a Park Shuttle Van will pick up participants every 10 min. Bike parking for cyclists and Special Guests will be at Curry Point. Arrive early!

Please forward this to ALL your cycling friends and clubs.

Special Thanks to California State Parks for providing the logical support, setup and traffic control. Special Thanks to TREK Bicycle for providing a Repair Van with two bike mechanics, bike racks and Valley Spokesmen for providing water
